cubus, cubus pure and filigno living

cubus

Details which are typical for TEAM 7 such as slot-and-pin connections for the frame and base, finger-jointed drawer and solid wood fronts sorted by hand highlight the quality of the craftsmanship of the entire **cubus** range. The 25 mm thick top board emphasises the solid construction of the **cubus** range. A glass table top can also be selected as an option. The modular cabinet system can be individually configured with 15 heights, 6 widths and 4 depths.

cubus pure

The central design feature of the **cubus pure** living range is the delicate coloured glass which surrounds the fronts like a passe-partout frame. The fine glass edges and recessed plinth provide a light, floating visual appearance. The glass sides can be easily exchanged using special connection adapters developed and patented by our engineers. The modular **cubus pure** cabinet system with 15 heights, 6 widths and 4 depths can be configured to suit your needs.

TEAM7

filigno

filigno living is particularly clear and structured. The design is inspired by a passionate determination to showcase the wood itself, in the form of slender, 12 mm three-layer panels. With refinement, elegance and modernity, **filigno** offers a lot of leeway for various design styles, from simple and elegant to flexible and young.
15 heights, 6 widths and 4 depths allow numerous planning options.

filigno console

Home entertainment systems are getting ever smaller, reducing the
need for the traditional storage space in wall units. The **filigno** console
picks up on this trend. At just 12.4 cm in height, it is pared back to
the essentials, resulting in a neat, contemporary aesthetic.

top: solid wood (1.2 cm), up to 320 cm continuous length possible

TEAM7

design elements

design elements

The design elements are open units made of pure solid wood, which integrate perfectly into the TEAM 7 element system. Whether as a free-standing suspended solo piece, or combined with or flush-mounted in sideboards, dressers, wall units, and kitchens, the design elements offer space to present decorative accessories – similar to a display case.

The display-cabinet character can be accentuated with optional all-glass doors. These hinged doors are made of transparent glass, available in clear glass, smoked glass, frosted glass or palladium. The back panel of the design element is available in a choice of coloured glass or wood.

partition modules

At the smallest element depth (25.8 cm), partition modules and
a divisions rod encased in leather can be manoeuvred freely
to provide a simple structure to the interior. These partition
modules can be arranged or combined in any way you wish.

leather divisions

lighting

The design elements can be supplemented with dimmable
LED lighting upon request. Here you can choose between
round, adjustable spotlights and square, flush-fitting lights.

TEAM7

types of wood

Unless stated otherwise, all wooden surfaces are finished with pure natural oil.
A detailed list of the wood types available for this product can be found on the pages 1-6.

alder	beech	beech heartwood	oak	wild oak*	venetian oak**

cherry	walnut	wild walnut*	oak white oil	wild oak white oil*

coloured glass

glossy or matt | glass surfaces in a colour of your choice (see available colours on NCS colour charts, surcharge applies)

white (optiwhite)	sand (optiwhite)	pebble (optiwhite)	taupe (optiwhite)	sludge (optiwhite)	dark brown

medium grey (optiwhite)	anthracite	black	pearl (matt only)	bronze (matt only)	steel (matt only)

ceramic

arctic white	phedra	cement	iron moss	basalt black

colour patterns

Wood is one of the most noble, beautiful and versatile natural products we have. Every piece of wood is unique. Differences in colour are a result of the wood's structure and place of origin. Similarly, the age of the piece of furniture will determine its colour, as natural factors in your home's environment (e.g. sunlight) can change the surface colour. When your order specifies a particular colour, we do our best to match it. But minor variations in wood, leather, fabric, glass and ceramic are inevitable. An exact colour match will never be possible.

*wild wood versions only available on fronts and table tops
**venetian oak is only available on fronts
